# ***Quality Assurance Shift from Oversight to Insight***

- New Emphasis on Insight and Partnership with Contractor
- Quality Assurance Built Into Program From Beginning
  - Outcome-based performance standards
- Relying on contractor's quality control program
  - Use contractor's generated metrics to determine if performance standards are met
- Eliminate government QAEs duplicating the contractors quality control program

Limiting inspections to validating the contractor's metrics

# *What is BSX?*

- An interactive system that brings policy, process, and people together to produce business solutions
  - **Policy**: The common “canvas” we want our people to work together on
  - **Process**: The many “paints, brushes, and techniques” an artist can use
  - **People**: “Artists” that creatively apply policy and process to produce business solutions

# *Policy, Process, and People at Work*

# *The Goal: Ongoing Refreshment*

# ***Way Ahead***

- **Leadership, Functional and Contracting Partnership Required**
  - Provide resources commensurate with requirement
  - Up-front research and planning for acquisitions
  - Ensure continuity and teamwork for maximum payoff
  - Continuous communication and improvement
  - Cross-functional perspective can save \$\$\$
